

YOUR TASK FOR NOW, I'LL ADD MORE STUFF AS THE TIME GOES ON FOR NOW DO THIS SIMPLE THINGS

Hermela (Frontend - Public Interface)

Focus: Making the app look beautiful and ensuring the Search works for everyone.

Your Tools

- **VS Code Extensions:** "ES7+ React/Redux/React-Native snippets", "Prettier - Code formatter".
- **Browser:** Chrome or Firefox (Use "Inspect Element" to debug CSS).

Your Roadmap

1. **Setup:** Clone the repo. Go to `/frontend`. Run `npm install` then `npm run dev`.
2. **Task 1:** Open `src/pages/SearchPage.jsx`. Improve the design of the "Search Results" cards. Make them look like the "Glassmorphism" examples Soreti shared.
3. **Task 2:** Check the site on your phone. Fix any CSS issues so it is "Responsive".
4. **Task 3:** Create a "Footer" component (`src/components/Footer.jsx`) with links like "About Us", "Contact".

UPLOAD THE FYP PAHSE 1 DOC AND TELL IT TO ANALYZE AND UNSERSTAND. THEN UPLOAD YOU TASK .MAKE SURE THE UI LOOKS COOD

Submit until March 30 if possible make it early.
